

INTERFERENCIAS AUSTRIA 2012

INTERFERENCIAS is an encounter/research collective of 26 international artists in the field of choreography, dance and performance.

INTERFERENCIAS provides a frame for an „artistic research happening“ in form of gatherings in several countries by creating temporary communities. The first edition took place 2010 in Mexico and lasted 3 weeks, combining the aspects of education, research and performance. During this period the participants developed a collective research frame, focusing on contemporary working conditions (means of creation, politics of performance, locality of actions and collective self-organization), which offered the space to follow your individual interest within the topic as well. In 2012 the 26 artist form a nomadic collective traveling trough Portugal, Austria, Mexico.

Public Sharing of the working process - One intense week of jumping into a working situation that might bring different experiences to everyone. It will not be a group experience but it will be an individual experience by every participant in a group. What we cannot do alone is what we enjoy to do at the moment! We cannot share our experiences with you, without you coming!

Sat 11. August, 1 pm Arsenal / Burgtheater Probebühnen & Art-for-Art-Werkstätten

Book Presentation - Interferencias platform established in 2010 when Alma Quintera and Esthel Vogrig made an Open Call to participate in an Open Format. The outcome was a research where themes and working modes were found by discussion in the group. It allowed everyone to speak out and to be listened, and so does the book. Centro de las Artes invited and supported the artists to document their process. This book is one outcome of a living process that continues and manifests for one week in Vienna.
